## **Benny Luyckx**

Visual artist, Sint-Niklaas, Belgium, 1965

The paintings of Benny Luyckx are a continuation and derivative of a series of giant charcoal drawings under the theme E.D.E.N. It deals with various themes such as evolution, the utopian world, human influence on nature and its relationship with it, religion, romantic art, but also, as in the small drawings about the insignificant (destroyed) human being and the destructive human being.
